Julie Brown, MDCM, MPH

Speaker Info:

Guest Faculty

Andrea Cruz, MD, MPH, Associate Professor, Pediatrics-Emergency Medicine, Baylor College of Medicine, Houston, Texas; Texas Children's Hospital. Dr. Cruz completed fellowships in pediatric emergency medicine and pediatric infectious diseases, as well as an MPH in epidemiology with a focus on global health at the University of Texas School of Public Health. She is research chief for pediatric emergency medicine (PEM), focusing on advancing the clinical research within PEM by fellows and faculty, as well as assisting in establishing collaborations with colleagues within and outside of the Department of Pediatrics. She is the site principal investigator for the Pediatric Emergency Care Applied Research Network (PECARN), a network of 18 academic tertiary care pediatric emergency departments throughout the United States.
