07:30 - 08:30

REGISTRATION + EXHIBITS

08:30 - 09:15

ANTIBIOTIC STEWARDSHIP

James Lewis

- ❖ To know and understand the proper use of use of antibiotics in an outpatient setting.
- ❖ To know and understand the proper use of antibiotics in a hospital setting.
- ❖ To know and understand the proper use of antibiotics in a long-term care facility.

09:15 - 10:00

WOUND CARE

Jessica Pierce

- ❖ Know the classification and identification of wounds.
- ❖ To know and review the different classifications of wounds.
- ❖ To know and understand the available treatment modalities in the delivery of wound care.
- ❖ To know the types of materials used for the delivery of wound care.

10:00 - 10:20

BREAK

10:20 - 11:05

TRAVEL MEDICINE

Elaine Jong

- ❖ Understand the demography of the immigrant population from Asia, Africa, and the Middle East and the common infectious diseases in the infectious diseases common to this population.
- ❖ To know and review the common diseases associated with foreign travel.

11:05 - 11:50

UPDATE ON ANTIBIOTICS

David Spach

- ❖ Know the appropriate selection the common antibiotics used in the outpatient setting including skin and soft tissue infection, Urinary Tract Infection and Upper Respiratory Infection.
- ❖ To know and review the appropriate antibiotics for the special population with implantable device infections. Including. CNS, cardiac, genitourinary and orthopedic devices.

11:50 - 01:00

Lunch

MEET THE EXPERTS WORKSHOPS

Special Topic Discussion Groups require pre registration.

Space is limited and will be filled on a first come, first served basis.

11:50-01:00

WORKSHOP A: USE OF ANTIBIOTICS IN THE HOSPITAL SETTING

David Spach

- ❖ Know the different antibiotics for clinical used in the hospital setting. Including infections involving the skin, soft tissues, bone, lungs, genitourinary, heart and the central nervous system.

11:50-01:00

WORKSHOP B: TRAVEL MEDICINE

Elaine Jong

- ❖ To know and review what to prepare for travel.
- ❖ To review how to do pre travel and post travel evaluation.

01:00 - 01:45

UPDATE ON VACCINES

David Spach

- ❖ To know the recent guidelines for the immunization schedule for adults
- ❖ To know the recent guidelines for the immunization schedule for special populations including the pregnant, elderly, immunocompromised and with vaccine allergy.

01:45 - 02:30

HIV, HEP B AND HEP C

Brian R. Wood

- ❖ To know what is new in the diagnosis and treatment of HIV.
- ❖ To know the postexposure prophylaxis of an HIV exposure.
- ❖ To know the indication and management of prep for HIV.
- ❖ To know the indication for the treatment and prevention of hepatitis B and hepatitis C.

02:30 - 02:45

BREAK

02:45 - 03:30

GASTROINTESTINAL

John Lynch

- ❖ To know and understand common C.diff and GI infection diagnosis, and treatment for Salmonella, Shigella, E. coli, Campylobacter, and Listeria.

03:30 - 04:15

INFECTION CONTROL

John Lynch

- ❖ To know and understand the latest recommendations for infection control in a hospital setting and community setting.
- ❖ Understand the rationale and execution of the different measures, instrument devices, and agents used in infection control.

04:15 - 04:30

BREAK

04:30 - 05:15

EMERGING DISEASES IN THE NORTHWEST

Shireesha Dhanireddy

- ❖ To review and discuss emerging and recurrent infectious diseases such as coccidioidomycosis, tick-borne diseases, recent worldwide threats, Ebola, MERS, and new diseases associated with sporadic outbreaks.

05:15 - 6:00

STD UPDATE

Julie Dombrowski

- ❖ Know the epidemiology of the different types of STDs common in the Northwest including Syphilis, Gonorrhea, Chlamydia, and Warts.
- ❖ Know the diagnosis treatment and prevention of STDs.
- ❖ To know and interpret the different syphilis tests and to know how to treat accordingly.

07:30 - 08:00

REGISTRATION + EXHIBITS

08:00 - 08:45

GASTROINTESTINAL

Michael Chiorean

- ◆ To know and understand the clinical manifestation and diagnosis of Inflammatory Bowel Disease.
- ◆ To develop and review a framework for evaluation and treatment of chronic diarrhea.

08:45 - 09:30

PULMONARY UPDATE

Steven Kirtland

- ◆ Know and understand the diagnosis and treatment of common pulmonary diseases including COPD, Bronchitis, Bronchiectasis and Pulmonary Embolism.
- ◆ To discuss the role that primary care providers have in the management of pulmonary disease.
- ◆ To discuss and review new treatments and the medical management of the above diseases.

09:30 - 10:15

PAIN MANAGEMENT

Christine Oryhan

- ◆ To know and understand the effective, and proper management of chronic pain.
- ◆ To review the risk assessment for opiate use and means to safely and effectively discontinue opiates.

10:15- 10:30

BREAK

10:30 - 11:15

LGBTQ+

Carrie Horwitch

- ◆ Understand how to care for the LGBTQ+ Community, and how to make the office/atmosphere more inviting.
- ◆ To know the common diseases affecting the LGBTQ+ community.

11:15 - 12:00

PRIMARY CARE: ORTHOPEDICS

Douglas Paauw

- ◆ To know the evaluation and treatment of knee pain in the primary care setting. To treat common conditions such as acute injury, mono arthritis, and osteoarthritis.
- ◆ To know and understand the evaluation, diagnosis and treatment of common hip and upper leg pain disorders.

12:05 - 01:00

Lunch

12:05-01:00

Jeopardy: Medical Knowledge Edition Contest & American College of Physician Update

01:00 - 01:45

NEPHROLOGY

Leah Haseley

- ◆ Know the causes, diagnosis and treatment of nephrotic range proteinuria.
- ◆ To discuss and review roles of primary care providers for patients with advanced and end stage kidney disease. Including patient's treat CV risk, metabolic bone disease, pre-dialysis evaluation.

01:45 - 02:30

RHEUMATOLOGY

Gregory Gardner

- ◆ To review and discuss the diagnosis and treatment of common rheumatological disorders including: RA, Osteoarthritis. Lupus and Psoriatic arthritis.
- ◆ Know and understand the role of primary care providers have in the management of rheumatological disorders.
- ◆ To know and discuss new treatments and the medical management of the above diseases.

02:30 - 02:45

BREAK

02:45 - 03:30

PERIPHERAL NEUROPATHY

Eric Gierke

- ◆ To know and understand the presenting symptoms and causes of peripheral neuropathy.
- ◆ To discuss the physical findings and diagnostic studies for evaluation of peripheral neuropathy.
- ◆ To understand and discuss the medical management and other modalities for the treatment of peripheral neuropathy.

03:30 - 04:15

DIABETES

Savitha Subramanian

- ◆ To review the perioperative care for diabetic patients including risk assessment, glycemic goals and choice of medications.
- ◆ To understand advances in blood sugar testing for diabetics and the use of insulin pumps.
- ◆ To know and understand newer diabetes medications: evidence, risks and benefits.

04:15 - 04:30

BREAK

04:30 - 05:15

ADDICTION

Jeff Allgaier

- ◆ To describe the common drugs of abuse and their side effect profile.
- ◆ Know and understand the management of addiction and withdrawal symptoms in the hospital setting.
- ◆ To review how primary care providers can help in identifying patients with addiction/withdrawal symptoms.

05:15 - 06:00

DEPRESSION

Farrukh Hashmi

- ◆ To understand the differences between depression and bipolar disorder.
- ◆ Understand and provide a simple screening tool for bipolar disorder, depression, and suicidal ideation.
- ◆ To know and understand medical management of depression.

07:30 - 08:00

REGISTRATION + EXHIBITS

08:00 - 08:45

CEREBRAL PALSY

Kelly Pham

- ❖ To review the impairments affecting gait in children with cerebral palsy.
- ❖ To describe the classic gait patterns of children with CP.
- ❖ To review tone management treatment of cerebral palsy including enteral medications, chemodenervation, chemoneurolysis, selective dorsal rhizotomy and the use of intrathecal baclofen pumps.
- ❖ To describe orthopedic management of children with CP.

08:45 - 09:30

CONFIDENT & CONTEMPORARY MANAGEMENT OF PEDIATRIC ASTHMA

Amanda Striegl

- ❖ To understand the endotypes and phenotypes of pediatric asthma.
- ❖ To review the use of available therapies for pediatric asthma.
- ❖ To know the technique with the use of inhaled drug delivery devices for the treatment of pediatric asthma.
- ❖ To know the personalized "step-up" therapy for pediatric patients with poor asthma control.
- ❖ To know the use of digital health tools for pediatric asthma care.

09:30 - 10:15

COMMON PEDIATRIC UROLOGY PRACTICE

Kathleen Kieran

- ❖ To know and understand the common presenting pediatric urologic complaints.
- ❖ To describe and understand the criteria used in the management and follow-up of pediatric urologic care.
- ❖ Know the role of the primary care in the treatment and management of common pediatric urologic problems.

10:15- 10:30

BREAK

10:30 - 11:15

RECREATIONAL DRUG AND SUBSTANCE USE

Yolanda Evans

- ❖ To know the trends for recreational drug and substance use in the US.
- ❖ To know the diagnosis and screening for recreational drug and substance abuse.
- ❖ To understand the role of parent and providers in the prevention and diagnosis and treatment of recreational drug use.

11:15 - 12:00

SCOLIOSIS AND BACK PAIN

Jen Bauer

- ❖ To know the diagnosis of Scoliosis and back pain in the pediatric population.
- ❖ To understand the basic treatment algorithm for Idiopathic Scoliosis.
- ❖ To understand other treatment modalities for Scoliosis.

12:05 - 01:00

Lunch

MEET THE EXPERTS WORKSHOPS

Special Topic Discussion Groups require pre registration.

Space is limited and will be filled on a first come, first served basis.

12:05 - 01:00

WORKSHOP C: CONTRACEPTION IN ADOLESCENTS AND TEENS

Yolanda Evans

- ◆ Know the key concerns when counseling on contraception in the adolescent and teens.
- ◆ Understand the contraceptive options available to teens in the US.
- ◆ Understand risks and benefits associated with each of the contraceptive options.

12:05 - 01:00

WORKSHOP D: KAWASAKI DISEASE

Salaam Sallaam

- ◆ Identify the criteria to diagnose Kawasaki Disease.
- ◆ Review the cardiac sequela of Kawasaki Disease.
- ◆ Describe medical management and follow up plans for patients with Kawasaki Disease.

01:00 - 01:45

NON-ALCOHOLIC FATTY LIVER DISEASE IN PEDIATRICS

Niviann Blondet

- ◆ To know the diagnosis Non-Alcoholic Fatty Liver Disease in Children.
- ◆ To know the association of obesity and other comorbidities with Non-Alcoholic Fatty Liver Disease in Children.
- ◆ To know the epidemiology, natural history and pathogenesis of Non-Alcoholic Fatty Liver Disease in children.
- ◆ To know the current treatment options for Non-Alcoholic Fatty Liver Disease in children.

01:45 - 02:30

EATING DISORDERS IN THE PEDIATRIC POPULATION

Yolanda Evans

- ◆ To know the diagnosis of the different eating disorders.
- ◆ To know the complication and diseases associated with eating disorders.
- ◆ Understand the different treatment models used in the care of eating disorders in teens.

02:30 - 02:45

BREAK

02:45 - 03:30

EVALUATION OF SYSTOLIC HYPERTENSION IN THE PEDIATRIC POPULATION: A CARDIOLOGIST PERSPECTIVE

Louay Toni

- ◆ To understand the potential cardiac etiologies of systolic hypertension in the pediatric population.
- ◆ To understand the cardiac sequela of chronic hypertension.
- ◆ To understand echocardiographic assessment of systolic hypertension.

03:30 - 04:15

CARING FOR TRANSGENDER PATIENTS

Crystal Cueller

- ◆ To recognize the health disparities faced by transgender youth and the need for specialized care.
- ◆ To discuss the current clinical guidelines in the treatment for transgender patients.
- ◆ Identify appropriate referrals for transgender patients.

04:15 - 04:30

BREAK

04:30 - 05:15

EFFECTIVE PRACTICE FOR ADOLESCENTS

Peter Asante

- ◆ Know the importance and rationale for an adolescent WCC visit.
- ◆ To know the importance of teen-centered manner of practice.
- ◆ To know about the importance of giving/completing the vaccines in the adolescence.

05:15 -06:00

SUICIDE PREVENTION

Kalina Babeva

- ◆ To review the statistical situation of suicide in Washington State. Review that suicide is a preventable public health issue.
- ◆ To understand the primary preventions of suicide.
- ◆ Understand the secondary preventions of suicide.
